About me

I like creating beautiful and functional interfaces for users, I strive to improve my skills and aim for become a good front-end developer.

I would like to get more practical experience, where I could use my theoretical knowledge. I want to try to solve complex problems and new challenges.

Education

English courses "English Discussions"
English language learning (2023-to this day)

Hexlet courses
Frontend developer course with a mentor (2022)

Belarusian State University of Culture and Arts
Bachelor's Degree with a specialisation in
Management of international cultural relations
(2016-2020)

English course
English language learning (2014-2016)

Belarusian State University
School of entrepreneurship (2015)

Experience

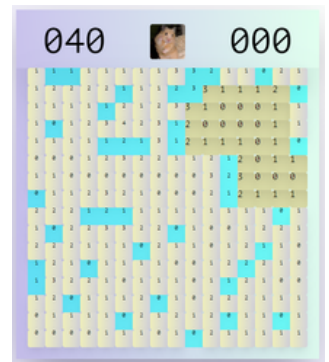

Minesweeper game (March 2023-current time)

repository link: <https://github.com/Kkuuttii/minesweeper>

#React, #TypeScript, #Redux, #Yarn, #Scss-styles

The rules of the game is to open cells that do not contain "mines".

- I used Redux for the first time in practice
- I learned how to divide complex tasks into many small tasks, which allows me to achieve the main goal - to create complex logic of the game of sapper

Jobored (April 2023-March 2023)

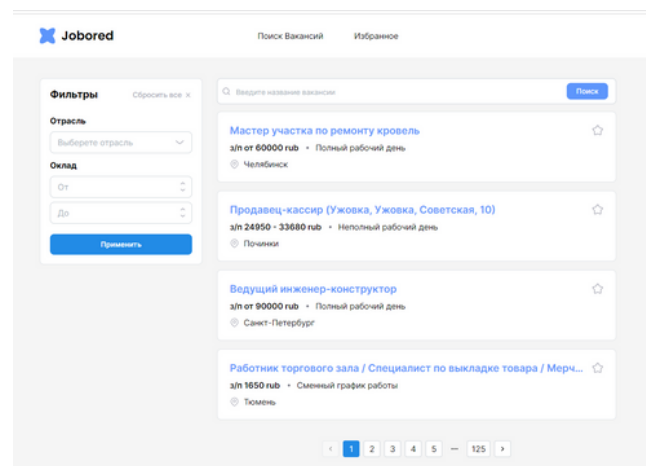

repository link: <https://github.com/Kkuuttii/Jobored>

website link: <https://kkuuttii.github.io/Jobored/>

#React, #TypeScript, #Scss-styles, #Axios,
#Website layout by figma-design, #Mantine
#Responsive-web-design,

A site for looking for work. You can filter vacancies by salary, keywords, and industry. You can open a vacancy to see more information or add a vacancy to favorites.

- I learned how to make an adaptive layout of the site
- Learned to do pixel-perfect layout according to figma design
- Created a site according to the customer's specifications

Rick-and-Morty (November 2022-March 2023)

repository link: <https://github.com/Kkuuttii/Rick-and-Morty>

website link: <https://kkuuttii.github.io/Rick-and-Morty/>

#React, #TypeScript, #Slider, #React-scroll,
#React-slick-carousel, #Rest-api, #Axios-react

A site about the Rick and Morty cartoon series. There is a library of characters with filters, quiz with randomly generated questions, and cartoon information page.

- I practiced React
- I learned how to use routing
